"This is a book I can heartily recommend to anyone wanting to know more about the Herbalife products. I find it priceless and use it daily to answer questions about the products. It is more information than most distributors want to know, but have found it a good reference book as a health professional when I get questions. It is not an official Herbalife publication. It is very well researched but the author's opinion. I have gotten to know Dave Miller (and) find him to be very dedicated to helping us use the products in the appropriate way. (Is that enough disclaimers? Sounds like a lawyer or a politician_) Many have asked me about the book and how to get it, so here is the information. Have a great Herbalife-Day.....**Steve" (Dr. Komadina) Presidents Team"**

The Herbal Product Reference Guide
All New: The 8th Edition

Order form

Name_____
Address_____
City_____State_____zip_____
Phone_____Cell_____
